cherrymae.caracas@gmail.com | Pangasinan, Philippines

TECHNICAL SKILLS

Programming Language, Libraries and Frameworks
C#, .NET Core, JavaScript, HTML, CSS, Python

Tools and Technologies
Azure DevOps, Adobe Experience Platform (AEP), Adobe Experience Manager (AEM), Oracle C2M, Microsoft SSMS, Postman, Git, OpenAI

WORK EXPERIENCE

Accenture, Inc. | Associate Software Engineer   April 2022 – Present

Client: American Gas and Electric Utility Company (October 2023 – Present)
- Developed .NET-based integrations between Oracle Utilities Customer-to-Meter (C2M) application and external systems to support the replacement of the client's existing Customer Information System and Meter Data Management solutions.
- Created technical design documents to capture system requirements and ensure alignment with client needs. Collaborated with solution architects to identify optimal approaches for integration and system builds.
- Implemented unit and integration tests, validating the connection between .NET systems and Oracle C2M Inbound Web Services (IWS), and executed Oracle database queries for test data validation.

Client: Australian Wealth Management Group (June 2022 – October 2023)
- Developed and maintained website tag management (Google and Adobe) solutions via AEP Launch ensuring accurate tracking of user interactions and data events on various web properties utilized by the client's marketing team
- Configured and managed data streams in Adobe Experience Platform (AEP) in preparation for the Real-Time Customer Data Platform (CDP) implementation within a 1-week timeline earning positive feedback from the client
- Supported in Adobe Experience Manager (AEM) content authoring, manual testing and participated in production deployments

RGC Group (Uratex PH) | Process Engineer   March 2020 – March 2022
- Spearheaded the digitization of procedural forms and documents, increasing Overall Equipment Effectiveness (OEE) by 10% and reducing physical storage needs.
- Designed and maintained comprehensive spreadsheets for production data storage, streamlining reporting processes and enabling accurate decision-making.
- Contributed to ISO 9001:2008 certification through process reassessment, operator training reinforcement, and quality control measures.
- Led operations for a newly commissioned foaming machine and automated racking system, resulting in a 50% production capacity increase.

LICENSES & CERTIFICATIONS

Microsoft Certified: Azure Fundamentals   June 2022

EDUCATION

Saint Louis University - Baguio
Bachelor of Science in Chemical Engineering, Magna Cum Laude   2014 – 2019
